Chapter 1 by Olivia

Leefrick is a weird hybrid considering his ancestors. You hear of his type in fairytales when they read a fairytale book. Elves.....they're not the social type they don't normally mingle with other races, and then there's Tiefling.....pretty similar to elves in their own way but there's the more powerful kinds and then the ones we see more often. Somehow an elf and a tiefling came together to create him. Due to his race no records are found of him even existing.....and somehow someone's caught on to this. Who is this person lurking in the shadows watching and what are their plans in the future.....why did they take an interest in him in the first place?

Chapter 2 by Olivia

Cold skin prickling wind caught hold of my cloak revealing my brown, soft, warm, snugly fitting breeches, and mid calf, high, black leather boots that are padded in just the right areas so that they make no noise when I walk. Dark puddles of murky water reveal shadows up above me. "Ugh" I let out quietly as I realize there's a total of five figures decked in black from head to toe, and they're coming after me. Not some other poor fellow but me. I flick my wrist releasing my elven silver stiletto. One of the many I have concealed upon me at the time. As I look down at the next

puddle to see my attackers I stop abruptly mid step and not because of what I saw more so because of what I didn't see. "How..." I hear a heavy metallic substance hit the crook of my neck making everything else I could feel disappear.
